The diagram illustrates a function call from a source function to two target functions. The source function, 'ZEngine::RHI::FRHITexture::GetDepthClearValue', is shown in a grey box on the left. Two blue arrows originate from its right side and point to two white boxes on the right. The top white box contains the text 'ZEngine::RHI::FClearValueBinding::GetDepthStencil', and the bottom white box contains the text 'ZEngine::RHI::FRHITexture::GetDesc'.
