

XMFLOAT4X4

```
classDiagram
    class XMFLOAT4X4 {
    }
    class ZEngine_Render_ObjectConstantBuffer {
    }
    XMFLOAT4X4 o-- "1" ZEngine_Render_ObjectConstantBuffer
```

The diagram consists of two class boxes. The top box, labeled 'XMFLOAT4X4', is white with a black border and contains two empty rectangular slots below the name. The bottom box, labeled 'ZEngine::Render::ObjectConstantBuffer', is gray with a black border and also contains two empty rectangular slots below the name. A blue line connects the bottom of the 'XMFLOAT4X4' box to the top of the 'ZEngine::Render::ObjectConstantBuffer' box, ending in a blue diamond. To the right of this line, the text '+TexTrans' and '+World' are listed, indicating the attributes of the 'XMFLOAT4X4' class.
